Kjetil works mainly with contract law in the areas of oil, gas, renewable energy and infrastructure. He has particular expertise in large and complex development projects, and he assists clients in all phases of such projects. Kjetil also has extensive experience in developing and negotiating framework and commercial models for new areas, such as CCS and hydrogen. Kjetil is ranked by Legal 500 in the category Electricity and renewable energy and the Norwegian Financial Daily has ranked Kjetil in the category Oil and Gas as well as in the category Offshore and Oil service.

'Kjetil Stensvik is engaging and rather than simply giving advice, he discusses with clients inclusively and collaboratively such that the client feels involved and confident in whatever conclusion is reached.'
